Bu bir günlük çevrimiçi kurs; ürodinami alanında daha önce tecrübesi olan uzman, sağlık çalışanları ve yardımcıları için kapsamlı eğitimi içermektedir. Kursta, alt üriner sistem semptomu olan zor olgulardaki ürodinamik incelemelere odaklanılacak ve yoğun biçimde bu olgularda ürodinami traselerinin önemi ve tanısal rolleri incelenecektir.

This is a 1 day online course aimed at Healthcare Professionals who are already proficient in urodynamic studies. The focus will be on diagnostic evaluation of difficult cases. This course will be an intensive exploration which will be invaluable to those wanting to tackle more challenging urodynamics cases.

Course Programme
